Attention: Mr Khethi Nkosi

Dear Sir

AGRÉMENT SOUTH AFRICA CERTIFICATION: DEGAFILL POTHOLE MIX

Build Africa Incorporated applied for Agrément certification of their Degafill Pothole Mix on 21 July 2017. The evaluation programme was finalised on 31 August 2017 and accepted on 06 September 2017. Degafill Pothole Mix is a cold applied system manufactured from methyl methacrylate resin to repair potholes within asphalt and concrete substructures. The surfaces which can be repaired include:

- Thin bituminous surfaces
- Asphalt and concrete surfaces

Degafill Pothole Mix comprises three components which are:

- Resin: 5.5 kg
- Filler: 15kg
- Scatter: 2kg.

The interim draft certificate was approved by Technical Evaluation Committee of the Board of Agrément South Africa on 29th March 2018. The interim certificate covers the use of Degafill Pothole Mix in type 1 -category (throw and go application).

Yours sincerely

Mr Joe Odhiambo

CEO: Agrément South Africa
